Library Architect Selection – Product Architecture + Design

With the assistance and input of Independent Construction Services, the Library's Owners Representatives, the Library Board of Trustees at their February 7 Special Board of Trustees meeting unanimously selected Product Architecture + Design - <http://www.product-architects.com/> - to serve as architects for the Library's upcoming expansion and renovation project. The Library Board is expected to sign a successfully negotiated contract with Product Architecture + Design in the coming weeks.

Product Architecture + Design is a well-respected architectural firm serving public libraries throughout the state of Illinois. Principals Tiffany Nash and Dan Pohrte have delivered many outstanding expanded and renovated public libraries to dozens of Illinois communities. The Library looks forward to working with Product Architecture + Design and to incorporating their creative solutions as it moves forward with expanding and renovating the Library.
